

Hey Lady! Welcome to your Sacred Money Archetypes® (SMA) Assessment. Thank you for taking the time to find out more about what makes you tick when it comes to the subject of money. Listen, money is vitally important in our lives and businesses. If you have been feeling stuck and uncertain around the subject of money in your life and business knowing your SMA and understanding what motivations, strengths, and challenges that archetypes possess can give you valuable insights into your money story. When you know your strengths you can play them up to your advantage and when you know your challenges you can have compassion for yourself during the difficulties.

Here are the directions to follow for this simple, fun and insightful exercise:

First, make sure you have some quiet time to yourself. Set aside 30 minutes to take the assessment and then read through your archetype micro-mini descriptions. If you like having soft instrumental music in the background while you think put on your favorite playlist. Also if you have one available, light a candle. As you light the candle take a moment to set an intention to be open to new ideas and to be compassionate with yourself as you learn something brand new that has the potential to crack your money code and move you forward in your life and business.

Second, answer your SMA assessment questionnaire. As you're taking the assessment go with your gut and know that your first answer are usually the best answer to the question at hand. Once you have completed the assessment, which generally takes about 15 minutes, tally your answers on the last page as directed. Make note of your top three and your bottom ranking archetypes.

Finally, remember you also receive a free 30 minute customized SMA reading with me personally. During that reading, you will find out how you can use your SMA strengths to propel you forward in your life and business.
